EAT MIAMI MARKETTA

You'll feel like you're in the bustling backstreets of Hong Kong, Barcelona or New York City in this unique festive marketplace. It's a huge warehouse with a wide variety of food stalls and bars featuring all cuisines imaginable. Dim sims with a side of pizza? Yes please!! With live music, open Friday and Saturday nights, you might even have a boogie!

DRINK BURLEIGH PAVILLION

Pop in for a casual post-beach drink or if you're from out of town, come for the view alone! The ultimate summer location, Burleigh Pavilion is the perfect spot for a cocktail with a side of people watching. With wood-fire pizzas, seafood and small bar-bites to share, the menu has a wide variety and is great for group settings.

SWIM SOUTH CORNER KIRRA BEACH

Tucked away in the Southern end of Kirra is a peaceful, more protected part of the beach where you can swim safely in the crystal clear waters beneath the trees. There's plenty of sand to go around, so bring your umbrellas and all the beach gear to set up for the day.

SURF SNAPPER ROCKS

Ahhh Snapper, what we can say? Obviously it's a world class wave seeing as it's the first stop on the World Championship Tour every year. It's an amazingly long and consistent, sand bottom, right hand point break. On a regular day, a wave for all surfing abilities. So, mind the crowd and probs don't head out when the tour's on.

SUNRISE POINT DANGER

Point Danger is the beautiful setting that marks where NSW meets QLD. In summer, stand with one foot on each side of the border and be in 2 time zones at once. Your phone actually recognises the line and changes instantly! Aside from the whole time travel gimmick, with panoramic views of the coast, it's the perfect place to watch the sunrise and the surf.

SUNSET BURLEIGH HEADLAND

Here is one of the best views in Queensland and one of our personal favourite sunset spots! Bring a picnic and watch the sunset over the Surfers Paradise skyline. The trees, the ocean and the sunset, combined with the twinkling city lights in the distance, it's mother nature and humanmade beauty at its finest!
